Enable text suggestions in Windows – Microsoft Support

Windows 10 · https://cleversupport.ca/docs/windows-10/enable-text-suggestions-in-windows-microsoft-support-2/

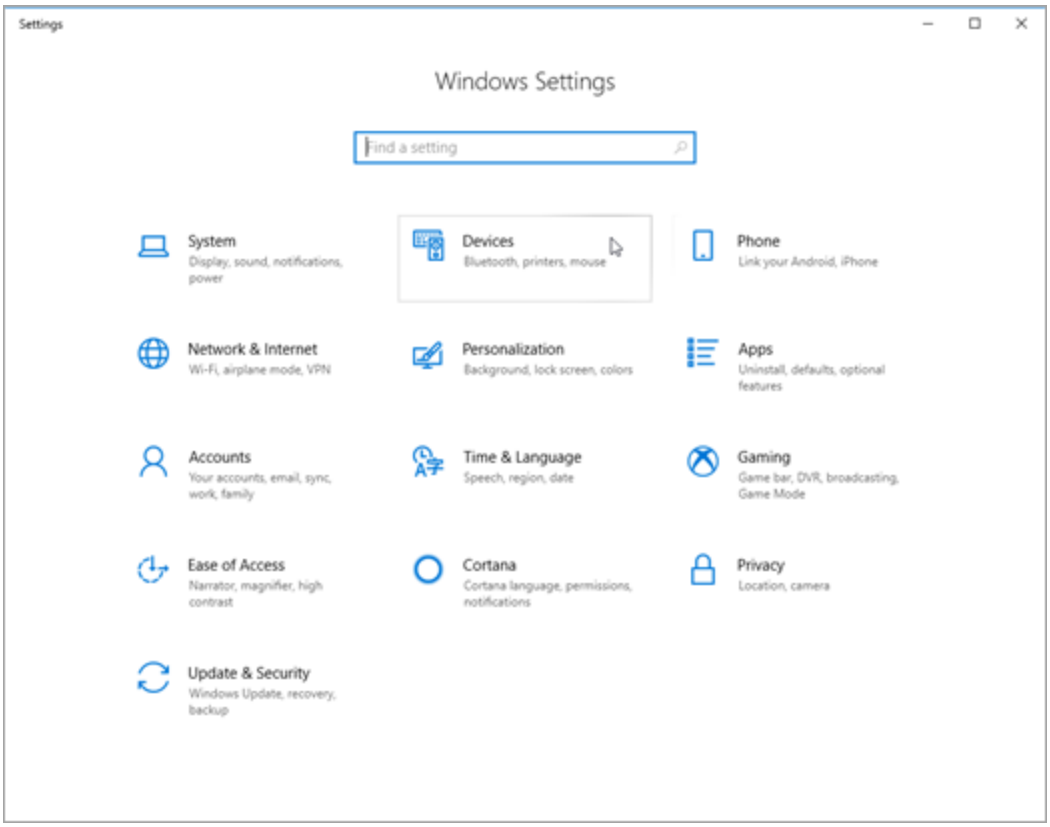

Turn on text suggestions in Windows to quickly complete challenging words and continue working efficiently. As you type, suggestions appear above your cursor, and you can easily select the one you want. Words are predicted based upon your spelling; as you type more letters, new and more accurate suggestions appear.

Windows 10

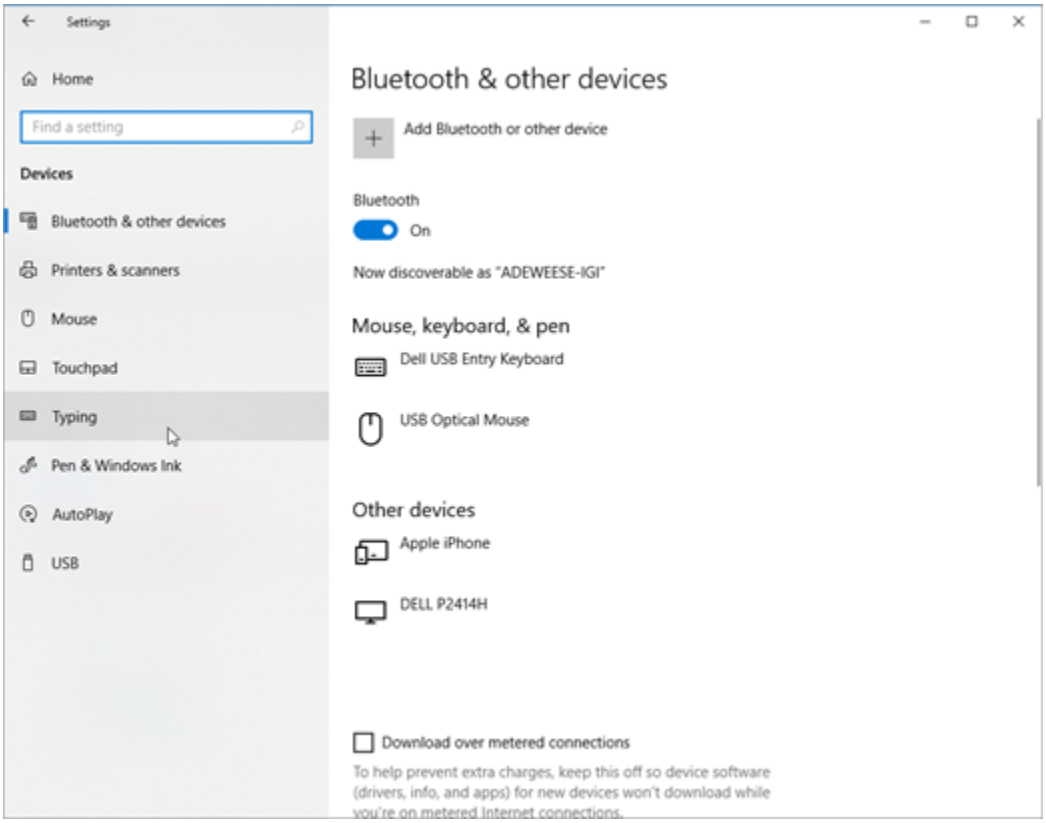

1. Select (Start) > (Settings). Alternatively, press Windows logo key+I to open **Windows Settings**.

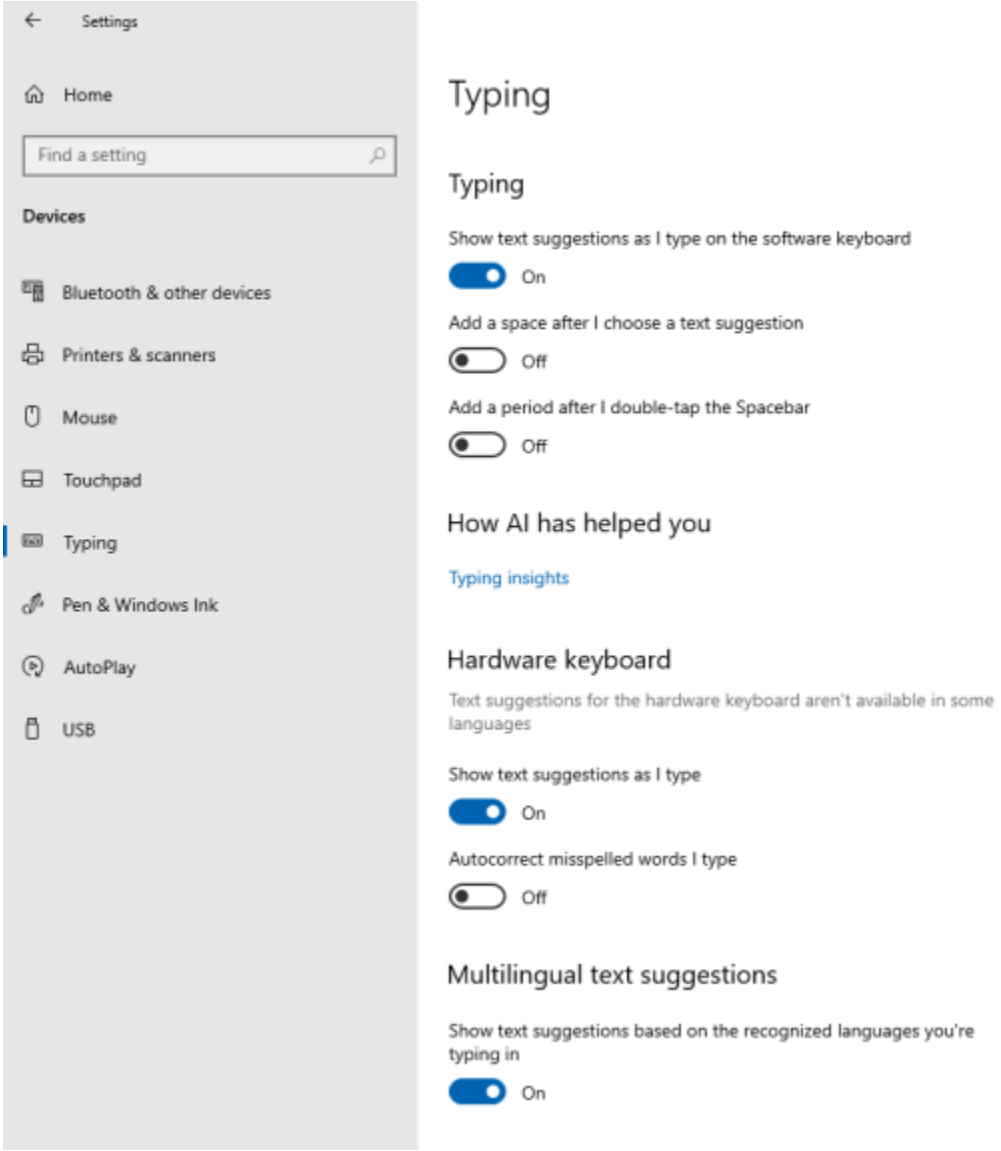

2. In **Windows Settings**, select **Devices**.

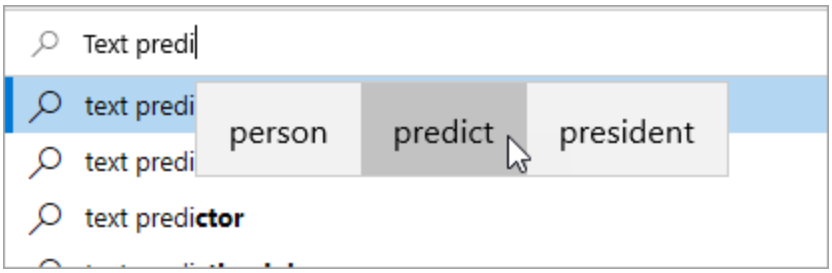

3. In the left navigation pane, select **Typing**.

4. Under **Hardware keyboard**,turn on **Show text suggestions as I type**. This enables text suggestions when you're typing on a physical keyboard.
5. Under **Typing**,turn on **Show text suggestions as I type on the software keyboard**. This enables text suggestions when you're typing on an on-screen keyboard.
6. If you want to use text prediction in several languages, turn on **Show text suggestions based on the recognized languages you’re typing in**.

7. After updating the settings, try typing, for example, a chat message in Microsoft Teams, a document in Word, or a comment to a blog post in your web browser. Suggested words appear as you type.
