Share a photo, video, or other kind of file with a friend who has a phone, laptop, or tablet.

1. Make sure the other device you want to share with is paired with your PC, turned on, and ready to receive files. Learn how to pair.
2. On your PC, select **Start**, then type **settings**.Select **Settings** > **Bluetooth & devices** > **Devices**.
3. In Devices settings, select **Send or receive files via Bluetooth**.
4. In Bluetooth File Transfer, select **Send files** > choose the device you want to share to > **Next**.
5. Select **Browse** > the file or files to share > **Open** > **Next** (which sends it) > **Finish**.
6. On the receiving device, have your friend accept the file. See Receive a file over Bluetooth.
